

Portable AC and HWDC coil

AC and rectified half-wave HWDC operation.

Designed for testing with both dry and suspended magnetic particles.

The coils are made of black polyurethane, very resistant but lightweight.

Available inner diameters:

- ✓ 8" (200mm) – weight 9,5kg
- ✓ 10" (250mm) – weight 12,4kg

Thermal protection

Power supply: 230V 50Hz

Cable length 10m

Duty cycle: 50% in AC, 10% in DC

It can also be used as a demagnetizer.
