

➤ NR5 Panel

Test panel for penetrant testing following TAM146040.

1	2	3	4	5
				
4,57-6,35	3,18-4,34	1,91-2,36	1,17-1,57	0,38-0,79
4,98	3,56	2,04	1,54	0,64

The NR5 test panel has a real progressiveness in monitoring of penetrant processes and will alert you to the slightest drift, which is the primary purpose of a panel. This is an alternative to the PSM-5p panel.
